

Murder at the Airport

Names of the CSI-team:

CSI - GENOMICS FORM FOR SUSPECT PROTEINS

For each of the unidentified proteins you must answer these five questions:

1. Which protein is it?
2. From which organism does it originate?
3. What is the function of this protein?
4. Is this protein "guilty"? Could it be responsible for the death of the tourist?
Why (not)?
5. Does the protein have any other remarkable features?

Suspect1	1
	2
	3
	4
	5
Suspect2	1
	2
	3
	4
	5

Suspect3	1
	2
	3
	4
	5
Suspect4	1
	2
	3
	4
	5
Final conclusion: How did the victim die?
